ELSEVIER

Dyes and Pigments 53 (2002) I–II

DYES and PIGMENTS

www.elsevier.com/locate/dyepig

Contents of Volume 53

Number 1

1 Masaru Matsuoka (1942–2002)
S.-H. KIM (South Korea), S.M. BURKINSHAW & J. GRIFFITHS (UK)

3 Studies of azo–hydrazone tautomerism and H-bonding in azo-functionalized dendrimers and model compounds
K.-S. CHEON, Y.S. PARK, P.M. KAZMAIER & E. BUNCEL (Canada)

15 The influence of crystal structure on the dyeing property of 1,4-diamino-2,3-diphenoxyanthraquinone
Q. MENG, D. HUANG, S. WEI & L. CHEN (People's Republic of China)

21 Synthesis, visible absorption spectra and application properties of disperse dyes derived from 1-indanylidenemalononitrile
N. ALMONASY, M. NEPRAŠ, L. BURGERT & A. LYČKA (Czech Republic)

31 Thermodynamic and kinetic aspects of self-association of dyes in aqueous solution
K. MURAKAMI (Japan)

45 Syntheses and spectral properties of non-planar bis(styryl)diazepine fluorescent dyes and related derivatives
E. HORIGUCHI, K. SHIRAI, M. MATSUOKA & M. MATSUI (Japan)

57 Synthesis of subphthalocyanine derivatives and their characterization
E. OHNO-OKUMURA, K. SAKAMOTO, T. KATO, T. HATANO, K. FUKUI, T. KARATSU, A. KITAMURA & T. URANO (Japan)

67 Solid-state laser with newly synthesized pigment
M. FUKUDA, K. KODAMA, H. YAMAMOTO & K. MITO (Japan)

73 Hetarylazo disperse dyes derived from substituted *N,N*-bis-β-hydroxy- and *N,N*-bis-β-acetoxy-ethylaniline
K.L. GEORGIADOU & E.G. TSATSARONI (Greece)

79 The sorption of several types of dye on crosslinked polysaccharides derivatives
F. DELVAL, G. CRINI, N. MORIN, J. VEBREL (France), S. BERTINI & G. TORRI (Italy)

Number 2

93 Kinetics of decolorization and mineralization of reactive azo dyes in aqueous solution by the UV/H_2O_2 oxidation
M. NEAMTU, I. SIMINICEANU (Romania), A. YEDILER & A. KETTRUP (Germany)

101 Synthesis of photochromic chelating spironaphthoxazines
T. DELIGEORGIEV, S. MINKOVSKA, B. JEJIAZKOVA & S. RAKOVSKY (Bulgaria)

109 Trisazo Direct Black dyes based on nonmutagenic 3,3′-disubstituted benzidines
G. GONG, X. GAO, J. WANG, D. ZHAO (China) & H.S. FREEMAN (USA)

119 Electric field induced second harmonic generation (EFISH) measurements on absorbing compounds: push–pull substituted anilines
R. DWORCZAK & W.M.F. FABIAN (Austria)

0143-7208/02/$ - see front matter © 2002 Elsevier Science Ltd. All rights reserved.

129 Sorption isotherms and behaviour of direct dyes on lyocell fibres
F. CARRILLO, M.J. LIS & J. VALLDEPERAS (Spain)

137 Kinetic studies on the proton-catalysed hydrolytic decomposition of quinone-imine dyes
M. BARRA, L.M. CROLL, A. TAN & W. TAO (Canada)

143 Some new symmetric rigidified triheterocyclic heptamethinecyanine dyes absorbing in the near infrared
S.S. RAMOS, P.F. SANTOS, L.V. REIS & P. ALMEIDA (Portugal)

153 Photo-oxidation and -reduction of vat dyes on water-swollen cellulose and their lightfastness on dry cellulose
T. HIHARA, Y. OKADA & Z. MORITA (Japan)

179 Thermodynamics of adsorption of laccaic acid on silk
P. KONGKACHUICHAY, A. SHITANGKOON & N. CHINWONGAMORN (Thailand)

Number 3

187 Synthesis of symmmetrically substituted octabromophthalocyanine pigments and their characterisation
K.R. VENUGOPALA REDDY & J. KESHAVAYYA (India)

195 The degradation of dyed cotton fabrics by the sensitised production of singlet oxygen via an aqueous soluble phthalocyanine dye
J.L. THOMAS & N.S. ALLEN (UK)

219 Deprotonation and protonation studies of some substituted 1,4- and 9,10-anthraquinones
T. PHILIPOVA, C. IVANOVA, Y. KAMDZHILOV (Bulgaria) & M.T. MOLINA (Spain)

229 The effect of hyperbranched polymers on the dyeing of polypropylene fibres
S.M. BURKINSHAW (UK), P.E. FROEHLING (The Netherlands) & M. MIGNANELLI (UK)

237 Semiconductor mediated photocatalysed degradation of an anthraquinone dye, Remazol Brilliant Blue R under sunlight and artificial light source
M. SAQUIB & M. MUNEER (India)

251 Crystalline-state photochromism and thermochromism of new spiroxazine
S.-H. KIM, H.-J. SUH, J.-Z. CUI, Y.-S. GAL, S.-H. JIN & K. KOH (South Korea)

Short communication

257 Synthesis of novel dyes derived from 1-ethyl-3-cyano-6-hydroxy-4-methyl-5-amino-2-pyridone
H. SONG, K. CHEN & H. TIAN (PR China)

Correspondence

263 The preferential reduction of 4,6 (5,7)-dinitro and 5,6-dinitrobenzimidazoles
S. DINCER (Turkey)

267 Ion-pair high performance liquid chromatographic study of the hydrolysis behaviour of reactive fluorotriazinic dyes
A. ZOTOU, I. ELEFTHERIADIS, M. HELI & S. PEGIADOU (Greece)
